

Friends

I have two friends. Balázs is my best friend who was learning in our secondary school until last year. We met 5 years ago, but we are friends only 3 years. Szotyí is also my friend. We see each other about 3-4 days a week. Me and Balázs go to cycle to Jánosmountain many times. Every fridays and Saturdays we go to the Margit-Island and we are drinking beer and talk about many topics. Sometimes our weekend we spent on country where we do campfire. At Friday afternoon I meet with Szotyí and we play on computer with Counter-Strike or listen to music or watch films. We help together in work. We discuss all our problems. I hope our friendship will keep forever.
